DETAILED ACTION

Election/Restrictions

This application contains claims directed to the following patentably distinct species of the claimed invention: Species #1 characterized by figures 1-8, Species #2 characterized by figures 10-12, Species #3 characterized by figures 13 and 14, Species #4 characterized by figures 15-17, Species #5 characterized by figures 18-20, Species #6 characterized by figures 21-28, Species #7 characterized by figures 29-32, Species #8 characterized by figures 33-37, Species #9 characterized by figures 38-43, Species #10 characterized by figures 44-46, Species #11 characterized by figures 47 and 48, Species #12 characterized by figures 49-52, Species #13 characterized by figures 53A-60, Species #14 characterized by figures 61-66, Species #15 characterized by figures 67A-72, Species #16 characterized by figures 73-78B, Species #17 characterized by figures 79-83, Species #18 characterized by figures 84-91.

Applicant is advised that a reply to this requirement must include an identification of the species that is elected consonant with this requirement, and a listing of all claims readable

thereon, including any claims subsequently added. An argument that a claim is allowable or that all claims are generic is considered nonresponsive unless accompanied by an election.

Upon the allowance of a generic claim, applicant will be entitled to consideration of claims to additional species which are written in dependent form or otherwise include all the limitations of an allowed generic claim as provided by 37 CFR 1.141. If claims are added after the election, applicant must indicate which are readable upon the elected species. MPEP § 809.02(a).

Should applicant traverse on the ground that the species are not patentably distinct, applicant should submit evidence or identify such evidence now of record showing the species to be obvious variants or clearly admit on the record that this is the case. In either instance, if the examiner finds one of the inventions unpatentable over the prior art, the evidence or admission may be used in a rejection under 35 U.S.C. 103(a) of the other invention.
